

StudyPilot – Weekly Timetable

Generated 16 Jun 2026 • 27 sessions • 27h 42m total study time

• Exam week

0 - 7 days left

• Revision

8 - 14 days left

• New chapters

15+ days left

DATE	SUBJECT	TOPICS	TIME	NOTES
16 Jun Tue	Data Structures & Algorithms	• Introduction to Algorithms • Asymptotic Analysis (Big-O • Big-Theta • Big-Omega) • Recursion and Recurrence Relations	81 min	-
17 Jun Wed	Data Structures & Algorithms	• Introduction to Algorithms • Asymptotic Analysis (Big-O • Big-Theta • Big-Omega) • Recursion and Recurrence Relations	81 min	-
17 Jun Wed	Data Structures & Algorithms	• Arrays • Linked Lists • Stacks • Queues	70 min	-
18 Jun Thu	Data Structures & Algorithms	• Introduction to Algorithms • Asymptotic Analysis (Big-O • Big-Theta • Big-Omega) • Recursion and Recurrence Relations	81 min	-
18 Jun Thu	Data Structures & Algorithms	• Arrays • Linked Lists • Stacks • Queues	70 min	-
18 Jun Thu	Data Structures & Algorithms	• Binary Trees • Binary Search Trees • Heap • Trie	58 min	-
19 Jun Fri	Data Structures & Algorithms	• Introduction to Algorithms • Asymptotic Analysis (Big-O • Big-Theta • Big-Omega) • Recursion and Recurrence Relations	81 min	-
19 Jun Fri	Data Structures & Algorithms	• Arrays • Linked Lists • Stacks • Queues	70 min	-

DATE	SUBJECT	TOPICS	TIME	NOTES
19 Jun Fri	Data Structures & Algorithms	• Binary Trees • Binary Search Trees • Heap • Trie	58 min	-
19 Jun Fri	Data Structures & Algorithms	• Graph Representation • BFS • DFS • Shortest Paths	49 min	-
20 Jun Sat	Data Structures & Algorithms	• Introduction to Algorithms • Asymptotic Analysis (Big-O • Big-Theta • Big-Omega) • Recursion and Recurrence Relations	81 min	-
20 Jun Sat	Data Structures & Algorithms	• Arrays • Linked Lists • Stacks • Queues	70 min	-
20 Jun Sat	Data Structures & Algorithms	• Binary Trees • Binary Search Trees • Heap • Trie	58 min	-
20 Jun Sat	Data Structures & Algorithms	• Graph Representation • BFS • DFS • Shortest Paths	49 min	-
20 Jun Sat	Data Structures & Algorithms	• Greedy Algorithms • Dynamic Programming • Backtracking	43 min	-
21 Jun Sun	Data Structures & Algorithms	• Introduction to Algorithms • Asymptotic Analysis (Big-O • Big-Theta • Big-Omega) • Recursion and Recurrence Relations	81 min	-
21 Jun Sun	Data Structures & Algorithms	• Arrays • Linked Lists • Stacks • Queues	70 min	-
21 Jun Sun	Data Structures & Algorithms	• Binary Trees • Binary Search Trees • Heap • Trie	58 min	-
21 Jun Sun	Data Structures & Algorithms	• Graph Representation • BFS • DFS • Shortest Paths	49 min	-

DATE	SUBJECT	TOPICS	TIME	NOTES
21 Jun Sun	Data Structures & Algorithms	• Greedy Algorithms • Dynamic Programming • Backtracking	43 min	-
21 Jun Sun	Data Structures & Algorithms	• Introduction to Algorithms • Asymptotic Analysis (Big-O • Big-Theta • Big-Omega) • Recursion and Recurrence Relations	30 min	Revision
22 Jun Mon	Data Structures & Algorithms	• Introduction to Algorithms • Asymptotic Analysis (Big-O • Big-Theta • Big-Omega) • Recursion and Recurrence Relations	81 min	-
22 Jun Mon	Data Structures & Algorithms	• Arrays • Linked Lists • Stacks • Queues	70 min	-
22 Jun Mon	Data Structures & Algorithms	• Binary Trees • Binary Search Trees • Heap • Trie	58 min	-
22 Jun Mon	Data Structures & Algorithms	• Graph Representation • BFS • DFS • Shortest Paths	49 min	-
22 Jun Mon	Data Structures & Algorithms	• Greedy Algorithms • Dynamic Programming • Backtracking	43 min	-
22 Jun Mon	Data Structures & Algorithms	• Introduction to Algorithms • Asymptotic Analysis (Big-O • Big-Theta • Big-Omega) • Recursion and Recurrence Relations	30 min	Revision

Data Structures & Algorithms study plan for 7 days, with 5 hours of study per day, including short breaks and weekend revision sessions.
